

CONFINED ACCESS

PART NO. 112-21-568-55-K

AXCS Equipment's confined access solution is designed to maximize operator safety by providing additional reach above the platform rails to access tight and restricted spaces overhead, like ceiling tiles and other ceiling mounted structures.

KEY FEATURES

- ▶ **Enhanced Safety:** Provides a secure way to access confined overhead areas while maintaining operator protection.
- ▶ **Extended Reach:** Adds 18.5 inches of access above platform rails for hard-to-reach spots.
- ▶ **Full Guarding:** Full-height rails on all four sides for maximum stability and safety.
- ▶ **Compact Design:** Collapses down to platform railing height to easily fit through standard doorways.
- ▶ **Flexible Controls:** Multiple control positions for improved operator convenience and usability.
- ▶ **Space Optimization:** Fold-up base increases usable platform space when not in use.
- ▶ **Quick Setup:** Designed for one-person installation in just 5 minutes.

SPECIFICATIONS

Additional Access	18.5 in (47 cm)
Capacity on Platform	250 lb (113.4 kg)
Capacity on Extension	230 lb (104.3 kg)
Rated Occupancy	1 Person
Wind Rating	0 mph (0 m/s)
Weight	70 lb (31.8 kg)
Serial Range	PS10-50082+ PS14-50863+ PS19-51954+
